

Bobois Beach Lodge:  
"Relax as hard as you can"  
<http://boboibeachlodgethegambia.com/>

It is a wonderful and unspoiled location off the beaten track directly at the beach near Kartong.

Accommodation in shared roundhouses with bathroom for 2-3 persons. All the beds have mosquito-nets. There are also some tree-houses with common bathroom - only for sportive people, the stairs are African style!

The lodge has a bar/restaurant, where you can get drinks and food all day long. Internet is in the bar-area.

The room rates include breakfast.

Please note, that the lodge operates with solar-energy. Every room/roundhouse except the tree-houses has got one light-bulb and one power-socket. The showers only have cold water. You are advised to bring a flashlight for night-walks.

The beach is perfect for surfing and fishing but you have to bring your own equipment. The area invites to bike riding. We can help you to rent a bike. There is a big empty round-house for workshops and meetings. A taylor from the village can come any time and take orders. Camping would also be possible, but you have to bring your tent.
